1. DIRECTORATE OF DISTANCE EDUCATION
2. AFFILIATED COLLEGES
3. UNIVERSITY CAMPUS SCHOOL
Directorate of Distance Education

Realizing the important role of education which it plays in the overall national development, the Maharshi Dayanand University created a Correspondence Cell during 1987-88 for imparting education through ‘Correspondence Course’ leading to the award of B.Ed. degree. The University, with the passage of time and development of technology and requirement of society, upgraded the Correspondence Cell to the level of a Directorate during 90’s and has expanded it tremendously to offer a wide spectrum of courses through a network of Study Centres all over the country. With the recent amendment in the Maharshi Dayanand University Act by the State Government, the Directorate, has restricted delivery of its courses to distance learners on its own, and has decided to provide opportunities for higher education to a large segment of population especially disadvantaged groups living in remote and rural areas, adults, housewives and working people.

The Directorate seeks to create, preserve, and disseminate knowledge to build competitive capability for holistic development of man and society. The various programmes offered by the Directorate range from conventional to professional as per needs of the area and employment opportunities available in the country. In order to meet the growing demand of open and distance learning, the Directorate has enriched in terms of resources for further access to the roots in the rural domain. The University is committed to encourage inter-disciplinary higher education and research to spread knowledge to every strata of the society. It aims at creating an innovative, value-based, and research-oriented world-class learning environment and establishing itself as a centre of excellence. The University envisions promoting quality education and research through inter-disciplinary under-standing, state-of-the-art learning, and the use of emerging knowledge for developing world-class human resources capable of meeting the global challenges of future technology and management.

Directorate of Distance Education of Maharshi Dayanand University, Rohtak offers 15 Undergraduate/Postgraduate. The reasons for the popularity of its programmes are carefully designed curriculum, well planned teaching learning strategies, effective student support system and fair examination and evaluation system.

The Directorate is housed in a spacious building, which is properly ventilated and easily accessible. Enquiry cell, Computer labs and Students Support System are manned by experienced staff. In view of the current framework of the University Act, the Directorate has evolved the concept of “Students Support Services Camps (SSSCs)" to help and groom the distance learners in several ways. Student Support Services in open and distance learning system is quite different from other services. These services are not confined only to interactive counselling or solving the learners problems but also include to promote distance learning to address the issue of continuous upgradation of skills so as to produce manpower resources of the kind and the number required by society, to fulfill the expectations indicated in the National Education Policy (1986). In addition to the services already mentioned, the focus of the educators shall also be on learners’ personality development, soft-skills, career counseling and guidance, community education.

Further, the SSSCs are aimed to facilitate learning, counselling and to solve the problems of the distance learners which they face during their self-study from the study material supplied by the Directorate. Through SSSCs, these learners get an opportunity to interact with the counsellors as well as with their peer group. Since the learners belong to different parts of the state/country and from different streams, so it is essential, to make the distance education programme not only meaningful and useful for the students pursuing different programmes being offered by the University through its Directorate but also to achieve the national objective of providing quality education to all and to reach at unreachable places.
