Dear Sir/Madam,

Centre for Medical Biotechnology, MDU is organizing one day workshop on “**Stem Cell Revolution**” on 16th November, 2018.

In today’s world scenario, stem cell therapy may be envisaged as ‘Elixir of Life’ means treatment of all ailments. Stem cell holds enormous potential for both science and medicine. The field of stem cell biology and regenerative medicine is rapidly moving towards translational research and eventually to clinical practices. Stem cell based therapies has the potential to change the face of human disease and alleviate suffering and is poised to be a major branch of medical treatment in the years to come.

The mission of this workshop is to provide a stimulating and interactive space where the biology and ethical issues related to stem cells can be openly and freely discussed and students will be able to learn isolation, characterization and culture of stem cells. Workshop is open to master’s students as well as for research scholars.
